

Uncovering the hidden gem - UI5 Developer Tools

Vivek Gowda & Nitish Mehta, INTEGRTR
July 7th, 2022

Speakers

Vivek Gowda

UI Architect (INTEGRTR)

[TheVivekGowda](https://twitter.com/TheVivekGowda)

[TheVivekGowda](https://github.com/TheVivekGowda)

Nitish Mehta

CoFounder & CEO, India (INTEGRTR)

[nitish_mehta](https://twitter.com/nitish_mehta)

[/in/nitishmehta08](https://www.linkedin.com/in/nitishmehta08)

[nitish-mehta](https://github.com/nitish-mehta)

Agenda

The evolution of front-end developer tools

Debugging basics with Chrome Developer Tools

Debugging in UI5

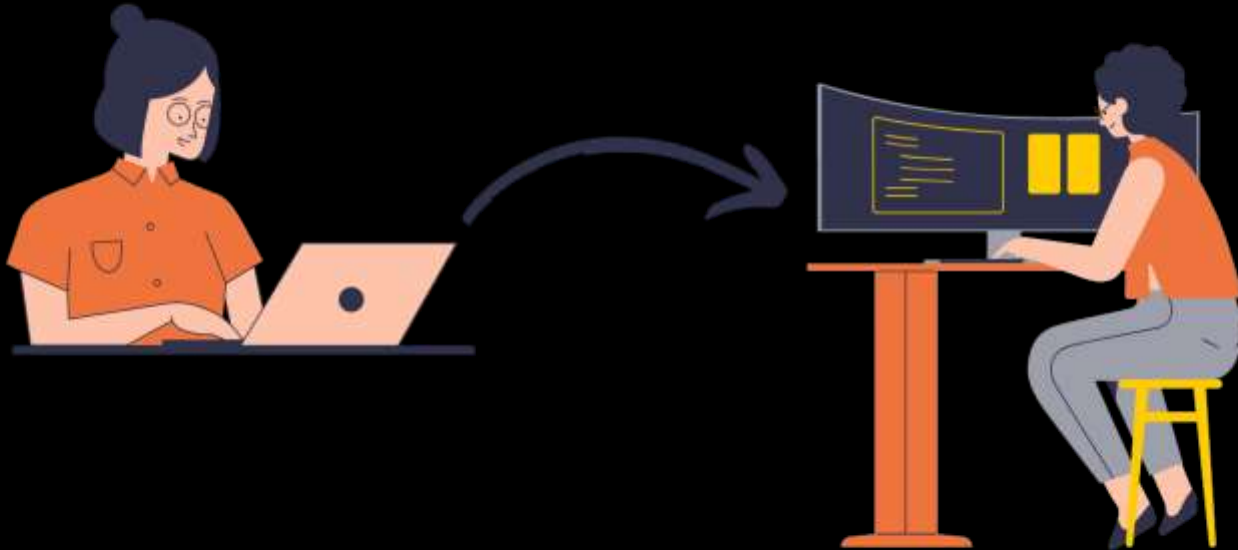

- UI5 Diagnostic Tools
- UI5 Inspector

Debugging in action | Live Demo

Recapping our learnings

The evolution of front-end developer tools

UI5con HYBRID[®]

“Developer friendly browsers”

#10YearChallenge

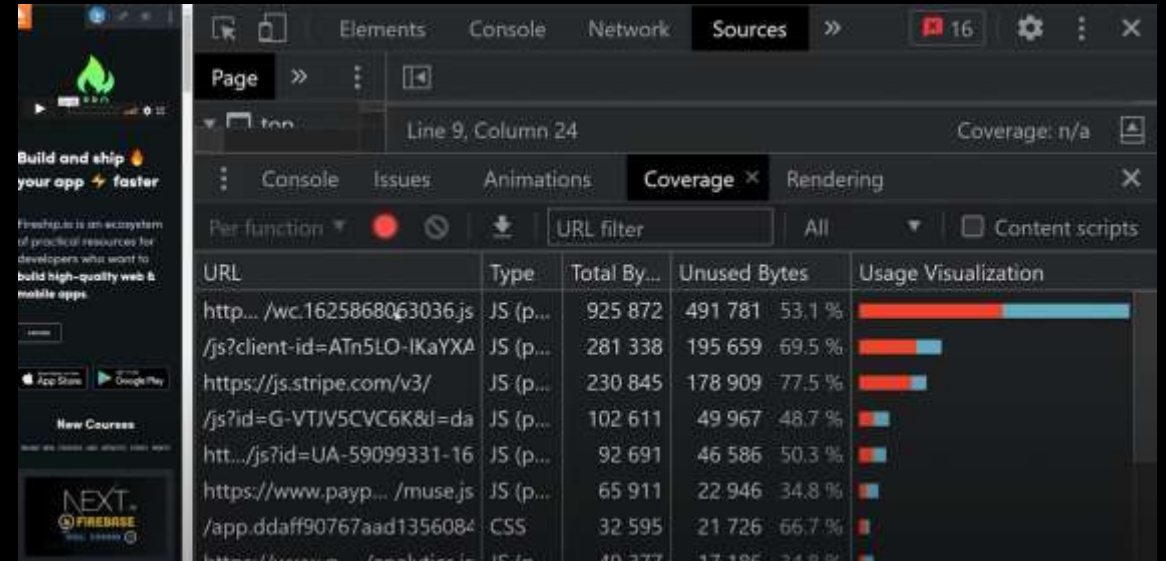

2012

The only hope were “console.log”, “debugger;” & a lot of patience :D

2022

“Inspect animations”, “visual coverage”, “memory analysis”, and more – all possible with built-in browser developer tools!

“Developer Tools”

#10YearChallenge

2012

Remember when your coffee got cold before the build was complete & Tomcat server ran it?

2022

Live-reload? Code suggestions? Cloud IDEs?

There's a buffet of tools and plugins to chose from!

UI5con HYBRID[📡]

Framework advancements

#10YearChallenge

2012

jQuery in UI5 | \$.onceUponATime()

```
$.ajax({
  url: "https://YOUR_SYSTEM/sap/byd/odata/cust/v1/your_service/Collection..",
  type: 'GET', /* or POST or DELETE or PUT or PATCH or MERGE */
  datatype: 'json',
  data: { amount: '12.34' },
  success: function(oResult) { /* do something */ }
  error: function(oResult) { /* do something */ }
});
```

2022

The frameworks are leaner and meaner ! 😊

- Enhanced native frameworks
- Minified files,
- Tree-shaking
- Optimized builds and more..

Don't believe us? See this blog by Andreas Kunz on the [UI5 loading evolution](#)

Code Quality & Testing

#10YearChallenge

2012

Syntax errors were discovered mainly after running things on the browser.

If you were too adventures, then an elaborate Jenkins + Maven setup might have helped you.

MavenTM

2022

- Automated tests and static code checks : part of standard lifecycle!
- Community driven solutions like [wdi5](#) : making testing easier !
- Cloud solutions like “Sentry” : track + analyse error trends across users.

ESLint

SENTRY

Debugging Front-end apps

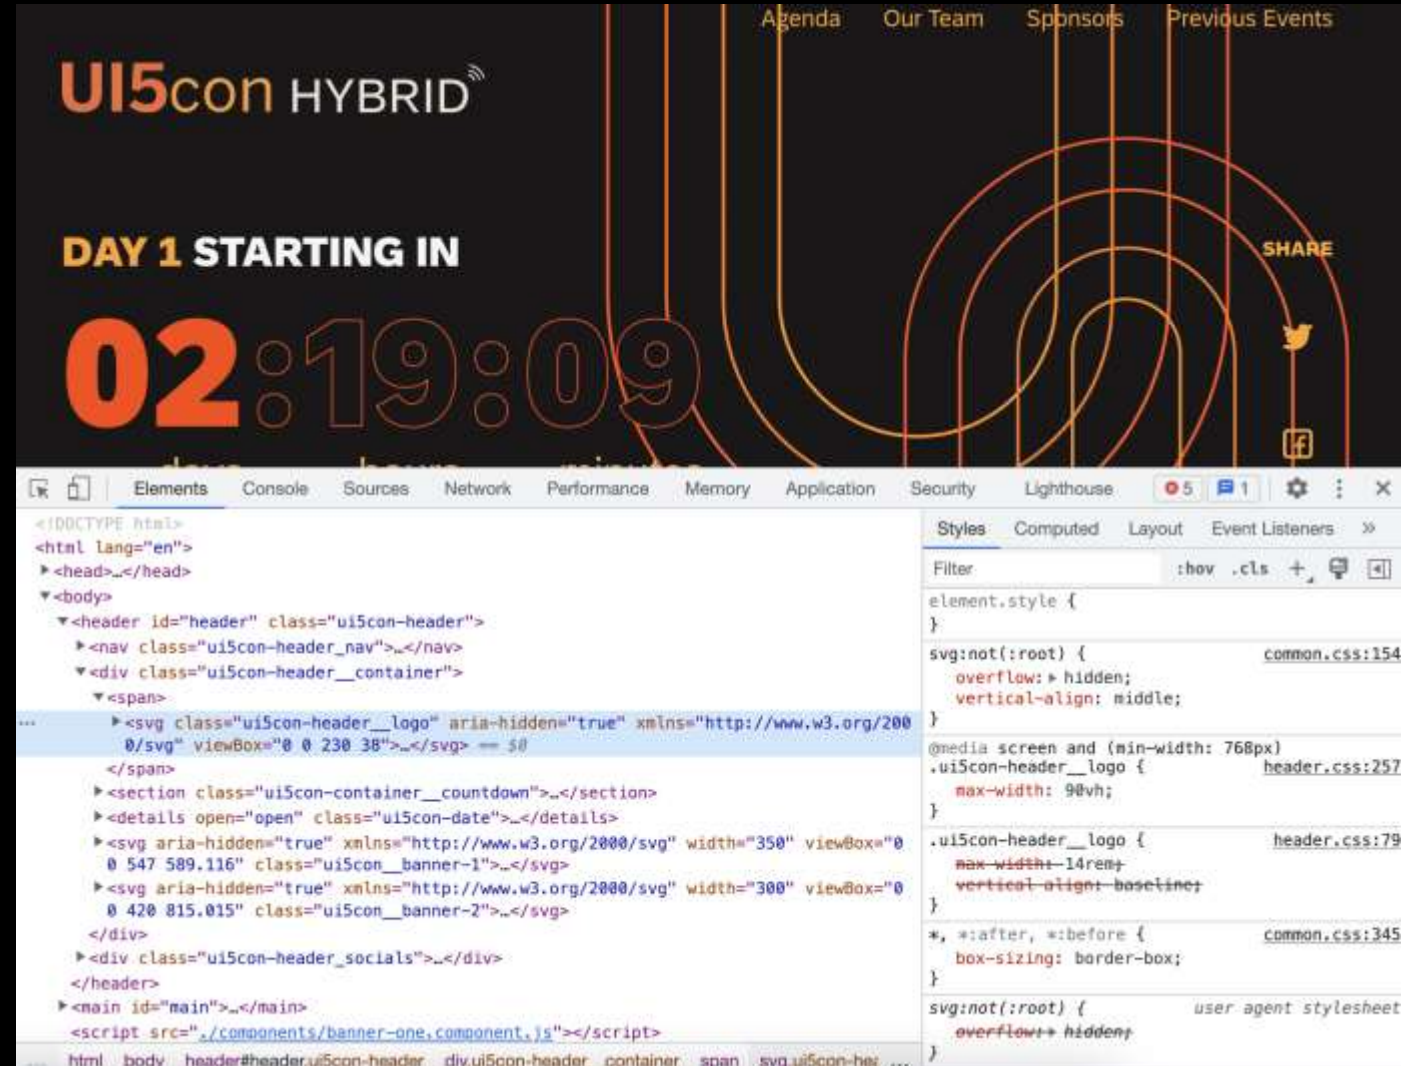

Basics of front-end debugging

Using Chrome Developer tools

Tools of trade

- Elements
- Console
- Sources
- Network tools
- Performance insights
- Cache & Memory

Debugging UI5 Applications

Framework specific tools

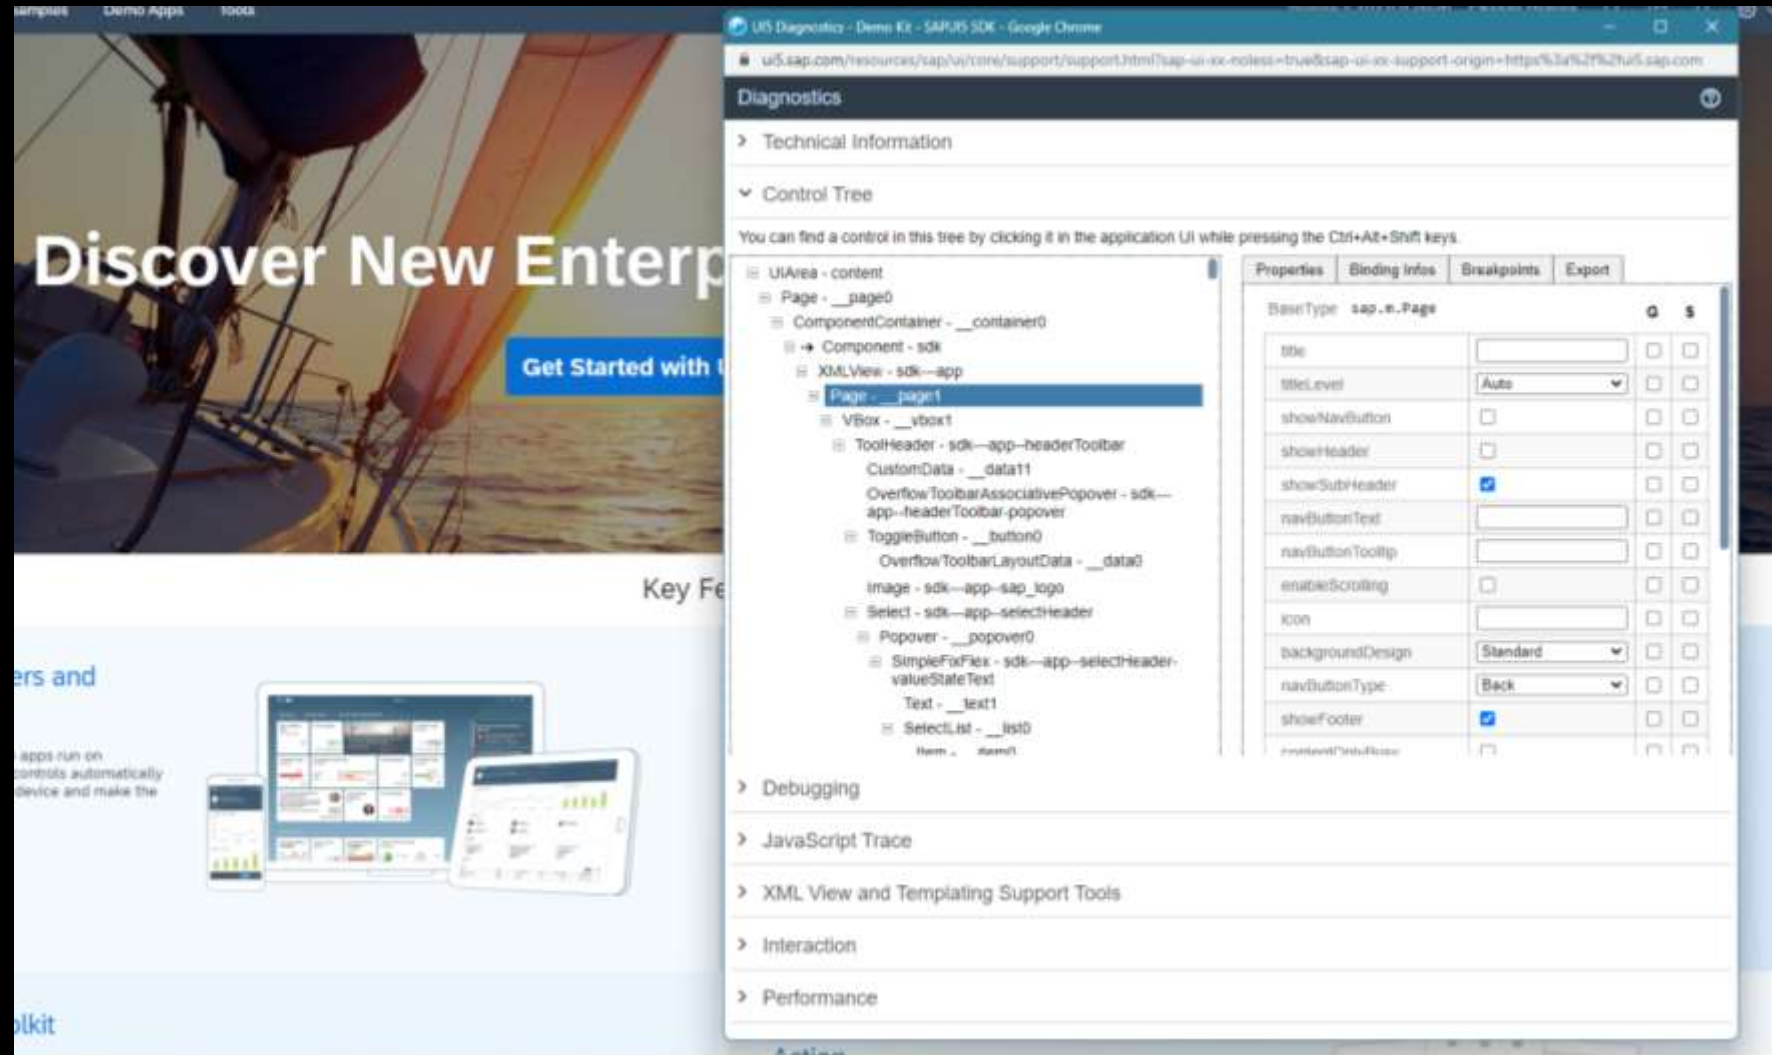

UI5con HYBRID[📶]

UI5 Diagnostic Tool

An inbuilt support tool that runs as part of the UI5 framework itself !

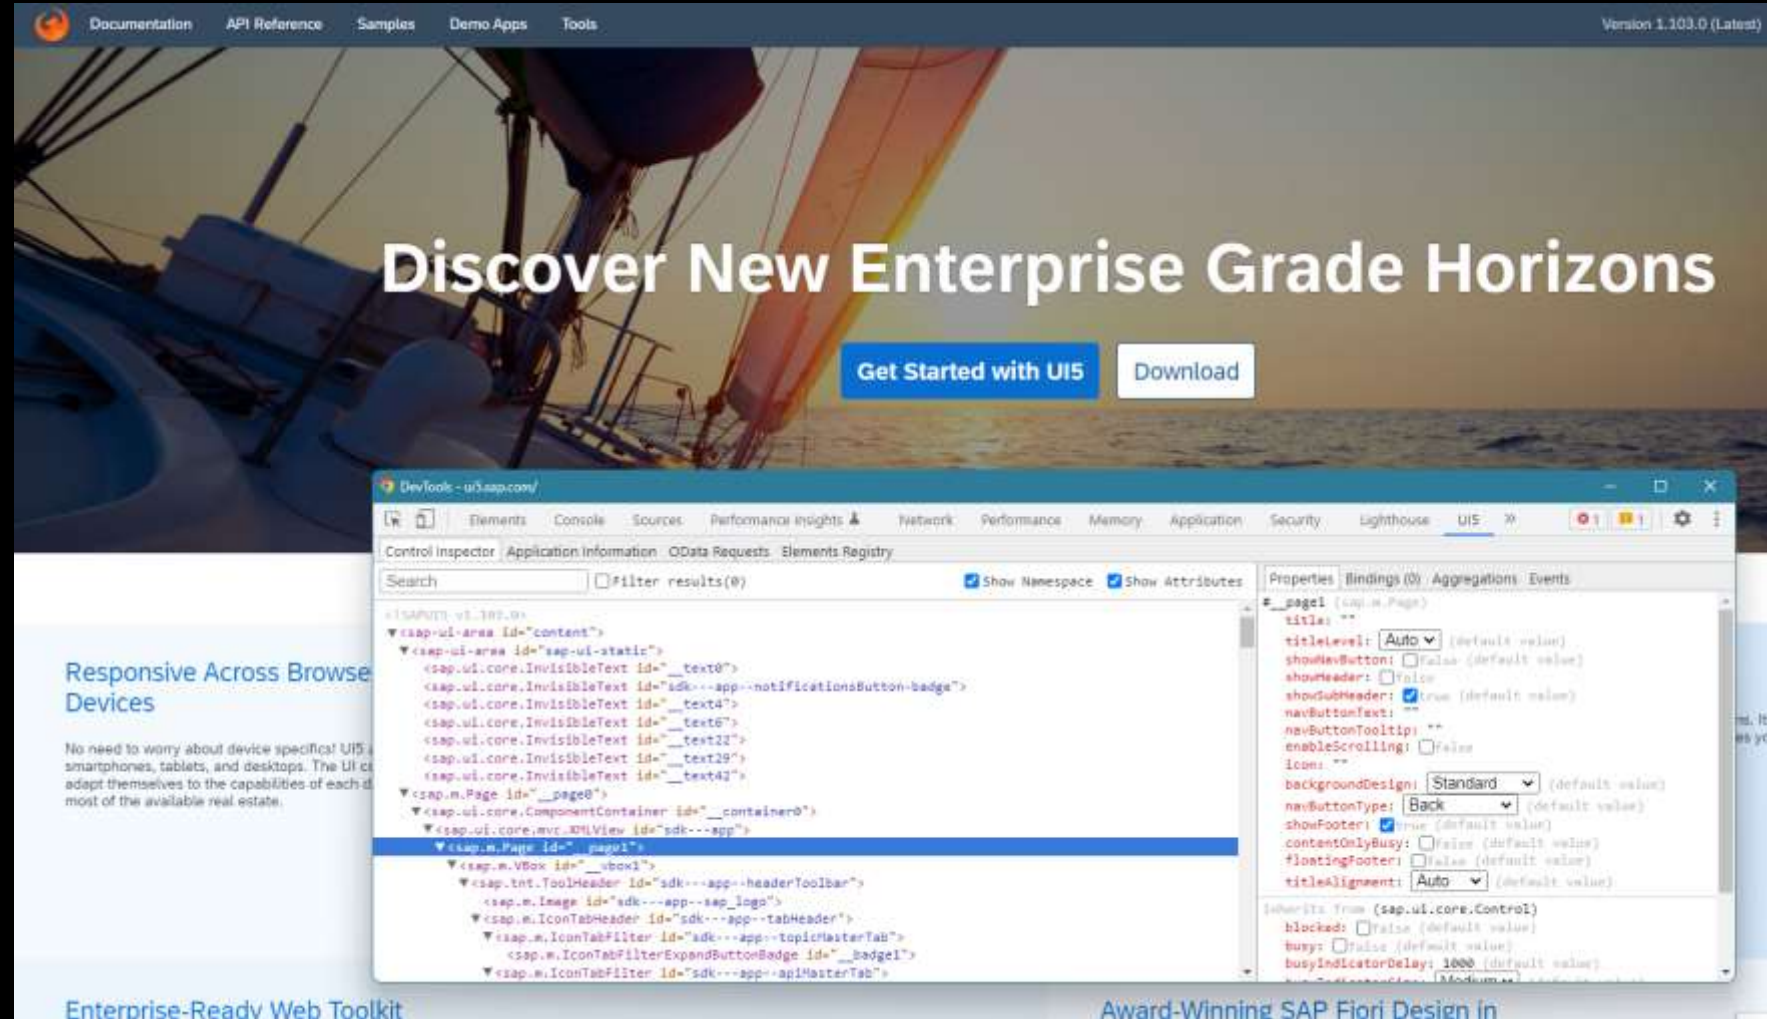

- ✓ Press Ctrl+Shift+Alt+S and start diagnostics!
- ✓ Analyse control tree, properties , binding info and more.
- ✓ Debug with breakpoints on UI5 control specific classes

UI5 Inspector

A chrome extension to power up your browser developer-tools with UI5 relevant capabilities!

- ✓ Inspect controls and review their properties, bindings, and data model
- ✓ Modify control properties on the fly and see how this affects rendering and behaviour
- ✓ Find relevant framework information for your UI5 app

Seeing it in Action

Most live demos run into issues. We curated some for ours ;)

What we Learnt!

Debugging is an art – do it your way !

Browser Developer Tools

- ❑ The first-aid solution for almost all problems
- ❑ Explore beyond the “Inspect elements” to fully leverage its capabilities

UI5 Diagnostics

- ❑ Part of the UI5 framework | Ctrl+Shift+Alt+S and fire-away!
- ❑ Allows UI5 specific diagnostic of control tree, data binding, control debugging and more.

UI5 Inspector

- ❑ Easily installable Chrome extension to analyse OData requests and controls
- ❑ Under active enhancements & recommendation for future

Download from 
[Chrome Web Store](#)

What if you need more help?

Google is always a good friend, but you'll find many more in the UI5 community!

- OpenUI5 on GitHub : <https://github.com/SAP/openui5/issues>
 - ❑ Tip: Raising Issues here might get your bugs good attention
 - ❑ *P.S. You can always contribute with your code for good karma ;)*
- SAP Community Forums : [SAPUI5 on SAP Answers](#) | [SAP Blogs](#)
- Ask your questions with details to get faster help.
 - 💡 Don't forget to share the UI5 version & browser version

Thank You!
